

How to Install and Program a MOTOTRBO IMPRES Vibra Alert Belt Clip and Vibrate Battery

These instructions refer to the following parts:

PMLN7296 PMLN7296A MOTOTRBO IMPRES Vibra Alert Belt Clip

**PMNN4488 PMNN4488A MOTOTRBO IMPRES Li-Ion Vibrate
Battery**

**This Vibra Alert Belt Clip and Vibrate Battery are available for the
XPR3000/e and XPR7000/e Radio Series.**

**As always, please refer to the Radio Model User Guide for Vibration
Style and Configuration. Typically, the Vibra Alert function will work
with QCI and MDC signaling.**

When installing the Vibra Alert Belt Clip the radio must be turned off.

**First, connect the Vibra Alert Belt Clip to the battery and then both
the Vibra Alert Belt Clip and Vibrate Battery to the radio.**

**CAUTION: When installing the Vibra Alert Belt Clip be careful not to
break the pins on the Vibra Alert Belt Clip.**

**To enable this feature, the user should access the Radio Menu and
under the field Alert Tones, set to Vibrate. Enjoy!**
