LOUD AND CLEAR AUDIO

BETTER OUTPUTS START WITH BETTER INPUTS

HIGH DYNAMIC RANGE MICROPHONES

- HDR mics reduce transmit distortion and increases intelligibility when users shout into mics
- With strategically placed mics users can talk into either side of the radio

CUSTOM SPEAKERS

- Not only loud, but clear audio - due to more intelligible inputs from HDR microphones, the audio emitting from the speaker is clearer as well

BACKGROUND NOISE SUPPRESSION

- Dual mics track your voice while cancelling out background noise to be heard more clearly in loud environments

RM760 / RM780

REMOTE SPEAKER MIC

COMMUNICATE WITH CONFIDENCE

- Supports Motorola Solutions' Work-When-Wet requirement, allowing water to drain out from the RSM instantly
- 3.5mm audio jack
- Windporting microphone
- IP68 rated (2m 4 hours)
- UL Div 1 approved
- Compatible with GCAI-mini cable
